

CASTING TECHNOLOGIES AT THE HIGHEST LEVEL

DIE CASTING | GRAVITY DIE CASTING | NI-HARD | NI-RESIST

Manufactured with high precision using state-of-the-art casting processes for maximum dimensional accuracy, reliability and performance.

Erhard Froehlich

YOUR BENEFITS AT A GLANCE

In-house tool & mould
manufacturing

Precise casting
production

Precise CNC
machining

Final Machining &
Quality Assurance

We specialise in high-quality casting solutions with our own tool manufacturing, modern machining and strict quality control – for reliable and precise components in industrial applications.

**TOGETHER, WE WILL REALISE
YOUR VISION – WITH THE UTMOST
PRECISION AND UNCOMPROMISING
QUALITY.**

Our machinery.

- Tool and mould making for machines up to 2000 tonnes.
- Modern casting production – HPDC, GDC, Ni-Hard and Ni-Resist.
- High-performance CNC machining
- Precise melting and casting technology
- Deburring, blasting & impregnation
- Modern measurement and testing technology

Why Erhard Fröhlich?

**Proven engineering and
manufacturing expertise**

**Designed in accordance
with international
standards**

**Committed to precision,
durability and reliability**
